#### HAPPY BIRTHDAY TO SENATOR BOB DOLE

(Mr. YODER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. YODER. Mr. Speaker, I rise today to celebrate an American hero, a true public servant in every sense of the word, and a man with whom Kansans are proud to share the Sunflower State as home.

Senator Bob Dole, a Russell, Kansas, native and proud Jayhawk, celebrated his 90th birthday yesterday, and has spent his entire life giving to make his country a better place for future generations. After courageously serving his country in World War II, Senator Dole continued to fight for the future of his country by serving in Congress, the Senate, and as a Republican Presidential nominee.

Like many Americans, I've been inspired by his exceptional leadership, his encouraging and positive personality, his quick wit, and his endless and selfless giving for his fellow man.

Mr. Speaker, as we wish Senator Bob Dole happy birthday, we look ahead toward many happy and healthy years with our great friend, and to a bright future in America because of the work of Senator Dole and the values and ideals he has personified and the qualities he has instilled in so many of us.

#### CELEBRATING SENATOR DOLE'S 90TH BIRTHDAY

(Mr. McGOVERN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. McGOVERN. Mr. Speaker, I, too, want to join my colleague, Mr. YODER, in honoring Senator Bob Dole on his 90th birthday.

I call my colleagues' attention to the fact that Senator Dole is really quite an extraordinary man and quite a legislator. He understood the importance of bipartisanship. He reached across the aisle and worked with Senator George McGovern on strengthening our antihunger social safety net. They made Food Stamps a better program. They championed WIC and school meals.

At a time when some of my colleagues are talking about destroying that bipartisan consensus on making sure that we combat hunger in this country, it is important to remember Senator Dole led, in a bipartisan way, to help the least among us.

I want to wish him a happy birthday and many, many more.

#### U.S. ENERGY EQUALS JOBS

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Mr. Speaker, the need for more homegrown American energy has never been greater. At home, our economy is still in a state of stagnation. Nearly 12 million of our fellow Americans are out of work. It's even higher among returning veterans from Afghanistan and Iraq. Abroad, volatile situations continue to erupt around the world.

We need an all-of-the-above, all-American energy strategy, not more red tape out of Washington, D.C. More American energy means lower energy costs for Americans and for all people in the United States, and that means more money left in your pocket. More American energy means a stronger economy as our energy sector is allowed to grow and expand. Simply put, more American energy means more American jobs, period.

Mr. Speaker, if we take care of ourselves, we can make Middle Eastern politics turmoil, and energy irrelevant.

And that's just the way it is.

#### COLLEGE COSTS

(Mr. MURPHY of Pennsylvania asked and was given permission to address the House for 1 minute.)

Mr. MURPHY of Pennsylvania. The National Journal today noted that borrowing accounts for 18 percent of how the average family pays for college. They also noted that majors vary considerably in terms of their cost, such as social science being about \$28,000 and engineering around \$25,000.

What's notable is the starting salaries for a number of majors is so low that students cannot pay back their loans.

What is also noteworthy is the cost of the actual tuition itself. Since the 1970s, when data first began to be gathered, college tuition costs have gone up 1,120 percent, while inflation itself has gone up a little over 200 percent.

As we're talking about the cost of college, it is very important, Mr. Speaker, that we also call upon colleges themselves to be responsible for trimming costs and for guidance counselors and colleges to also look at how they are advising students to move forward in their careers. An important part of this argument is how students are saddled with a great deal of debt that they can't repay because they simply are not in a major in which they can earn money, and how colleges spend so much on a number of amenities that have little to do with education.

So I hope that universities, themselves, look at how they can trim their costs instead of continuing to raise tuition on the students, who then are faced with a lifelong burden.
